

INTRODUCTION

We 'STEELO-FABRICA' are pleased to introduce our company as leading importers – exporters – traders – stockists of engineering and high performance plastics. These plastics are largely used in the Semiconductor industry, Pulp and Paper industry, Pharmaceutical industry, Waste Processing, Chemical Processing and Food Processing industry.

India being the biggest of manufacturing countries in the world and with 'MAKE IN INDIA' being focused for our countries overall development, the demand and use of these products have immense potential for growth in majority of Manufacturing Industries. Majorly products like industrial plastic products, industrial laminates, industrial gaskets like ring joint gaskets, industrial valves, industrial machined components, Industrial fasteners and washers, industrial sheets, industrial rubber sheets and many others.

We aim to provide and support our clients with superior quality of raw materials as well as finished customized products in engineering and high performance plastics like nylon – Teflon – peek – polypropylene – acrylic – delrin – pvc – asbestos – polycarbonate etc.

We provide these raw materials in forms of Solid round rods – Solid Square rods – Plates – Sheets – Rings – gaskets – flat bars – angle and channel - Hollow pipes – Hollow tubes – precision machined components.

Our biggest strengths are huge inventory – short delivery lead times – superior quality – no minimum order quantity – overseas mill partners for quick quotes – supplies across India – cutting facility – rigid and safe packaging – test certificates – variety of color options and products as per cut to size requirements.

We welcome enquiries and requirements from our clients. We hope to be among their kind vendors and be their supply chain support for a long business relationship.

Products & Applications

❖ STANDARD PLASTICS

- POLYPROPYLENE (PP)
- POLYVINYL CHLORIDE (PVC)
- PMMA (ACRYLIC)
- PE 300 (HDPE)

❖ ENGINEERING PLASTICS

- POLYAMIDE (NYLON)
- POM (DELTRIN)
- PET (Polyethylene terephthalate)
- PE 1000 (UHMW) (Polyethylene)

❖ HIGH PERFORMANCE PLASTICS

- PEEK (Polyether ether ketone)
- PVDF (Poly vinylidene fluoride)
- PTFE (Poly tetra fluoro ethylene)
- PC (POLYCARBONATE)

❖ APPLICATION INDUSTRIES:

- ✓ PRECISION COMPONENTS
- ✓ AUTOMOBILE PARTS
- ✓ MARINE INDUSTRY
- ✓ PHARMACEUTICAL & SURGICAL INDUSTRY
- ✓ PLUMBING & PIPING.
- ✓ OIL & GAS
- ✓ PACKAGING BOTTLE INDUSTRY
- ✓ CHEMICALS
- ✓ LABORATORY PRODUCTS
- ✓ ELECTRONIC GOODS
- ✓ INDUSTRIAL MANUFACTURING
- ✓ DEFENSE & AEROSPACE
- ✓ RAILWAYS
- ✓ FOOD PROCESSING
- ✓ HEAVY MACHINERY.
- ✓ SEMICONDUCTOR INDUSTRY

*****THANK YOU*****
